

Volvo Trucks. Driving Progress

# RENOVATION CENTRE

BRINGING BUSINESS SOLUTIONS FOR BETTER CHOICES!

# RENOVATED PARTS

**The next best alternate solution to genuine Volvo parts with assured Quality, Reliability, Cost-effectiveness and long service life**

**Watch the decision that drives your machines: And be rest assured!**

While genuine Volvo parts are the best option to maintain vehicle in the original condition; fleet operators do use locally manufactured or imported spurious parts to save costs. This results in frequent breakdowns, high downtime and eventually reduced life of vehicles because the spurious parts can damage other related parts and systems.

**Building better solutions with expertise!**

Fleet operation management is a value creation activity with a quest for maximizing production with cost minimization. High value creation for a business is not only from technological advancement of machinery and process, but also from decision making and choices which drives excellence in the entire business machinery.

To help fleet operators use superior quality parts as against locally made or imported spurious parts, Volvo Renovation Centre offers a broad range of renovated parts and aggregates for Volvo Trucks and Buses.

**Renovated Parts are the best alternative to Genuine Volvo Parts as they are certified by Volvo for quality and offer similar performance and reliability. Since they are made by Volvo, the renovated parts fit and perform like the genuine parts, thereby enhancing the life of the vehicle.**

**Volvo Renovation Centre**

Volvo's parts renovation facility at Hosakote, Bangalore has a team of technical experts and skilled technicians specialized in inspecting old core/parts and renovate them to original parts. Renovated Parts are made from the genuine Volvo core or parts recovered by Renovation Centre through core returns and wreck purchase. These parts are tested and certified to meet Volvo Quality Standards before replacement.

**Best-in-class facility**

Renovation centre facility has a best-in-class infrastructure with machines and testing equipment as per the global standards. The technicians working at the facility are specially trained on Volvo's international processes and practices to produce parts that meet Volvo's international quality standards.

Every Renovated Part produced at facility goes through stringent quality checks to meet the quality standards of Volvo Genuine Parts, there by offering the best alternative to Volvo Genuine Parts to the customer and ensures quality service of the vehicle.

As a result every Renovated part offers the quality and functionality of genuine Volvo parts and a cost-effective alternative to help Volvo customers save on cost without compromising on quality.

**Special tools**

The in-house development of special tools has helped to reduce repair time, improve the quality of repair and operational excellence to offer quality service to customer.

**Renovated Parts**

- A value proposition for your business
- Optimum Life cycle and performance
- High uptime
- Reduced ownership cost

**Profitability = Creating Value with cost minimization**

**Easy availability**

Renovated Parts are made available to all Volvo Service centres across the country. This ensures that you get the Volvo Renovated Parts in the shortest possible time anywhere in India.

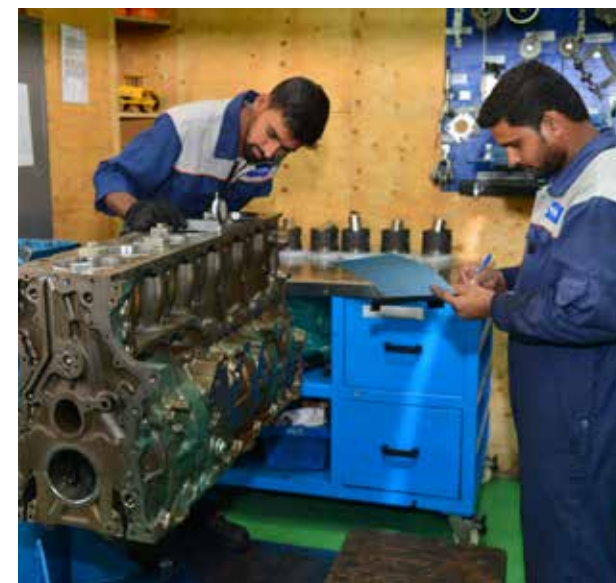

**Warranty**

All Renovated aggregates have one year warranty and all other subassemblies have 6 months warranty to secure your investment and also offer savings on replacement and maintenance.

**Core Return Policy**

Customer ordering renovated parts need to return the core immediately after receiving the Renovated Parts. This will ensure that the core reaches in time to renovation facility and next time when customer requires the same part, it is readily available.

Advantages of Volvo Renovated Parts
The best alternative to Genuine Volvo Parts
Meeting all Quality Standards
Specifications that match the requirement
Warranty secures your investment
Improves performance and reduces down time
Ensures longer service life of the vehicle
Readily available through service centres across the country

## LIST OF MAJOR RENOVATED PARTS

Trucks		Buses	
Description	Applicable Model	Description	Applicable Model
Engine	All Models	Engine	All Models
Cylinder Head	All Models	Engine Cylinder Short Block	All Models
Short Block	All Models	Engine Cylinder Head	All Models
Oil Cooler	FM9	Crank Shaft	Mark III
Oil Sump	FM	Cam Shaft	Mark I, II
Engine ECU	FM, FM9	Rocker Shaft	Mark I, II, III
Crank Shaft	FM9, FH12	Valve Cover	Mark III
Cam Shaft	FM9, FH12	Oil Filter Housing	Mark III
Alternator	All Models	Oil Cooler	Mark I, II
Starter Motor	All Models	Oil Pan	Mark III
Air Compressor	All Models	Manifold Inlet & Exhaust	Mark III
Radiator	All Models	Engine ECU	Mark III
Intercooler	All Models	FIP	Mark I, II, LE
Gear Box	All Models	Turbo Charger	Mark I, II
Differential	All Models	Injector	Mark II, III
Chassis Frame LH & RH	All Models	Radiator	All Models
Steering Gearbox	All Models	Intercooler	All Models
Clutch Plate	All Models	Starter Motor	All Models
Fifth Wheel Coupling	Tractors	Alternator	All Models
Transmission Housing VT2009/R1700	FM	Coolant Pump	All Models
Cabin Bare	All Models	Fly Wheel Housing	Mark III
Cabin Full Trim	All Models	Gear Box	All Models
Anti Roll Bar (Cabin)	All Models	Differential	All Models
Bogie Anchorage	All Models	Steering Gear Box	All Models
Driver Seats/ Passenger Seats	FM	Chassis Frame LH & RH	All Models
Bazels RH & LH	FM	Clutch Plate	All Models
Front Panel	FM	Hub Front / Rear	All Models
Fuel Tank (270 Lts)	FM	Belt Tensioner	All Models
Hub front	All Models	Air Compressor	All Models
Conversion Kit (HD)	All Models	Engine Wiring Harness	All Models
V-Stay	All Models	Clutch Fan Hub	Mark III
Rocking Gear	All Pullers	High Pressure Pump	Mark III, LE
Axle casing 3rd & 4th	RT3210HV	Chassis Wring harness	All Models
Spring Brake Chamber	All Models	Idler Pulley	All Models
Belt Tensioner	FM	Circuit Board	Mark I, II
Brake Repair Kit (Z-Cam)	All Models	Anti Roll Bar	Mark II
Climate Unit	All Models	Fly Wheel Assy	Mark III
Hub Reduction RT3210 HV	FM, FH	Retarder	B9R
Plantery Gear (Hub Reduction)	FM, FH	Brake Chamber	All Models
Gear Set (H R)	FM, FH	Brake Lining Kit	All Models
Hub Rear	All Models	Reaction Rod	Mark I, II, III
Diff Child Parts (4th Axle RT 3210 HV)	FM	Modulator	All Models
Gear Box Trolley Jack	All Models	Gear Box Trolley Jack	All Models
Aggregate Overhaul Stand	All Models	Aggregate Overhaul Stand	All Models
Glass Stand	All Models	Glass Stand	All Models
Tool Box	All Models	Tool Box	All Models

Renovation can supply other parts too, kindly get in touch with nearest dealer for more information. or Mail to: support\_partsindia@volvo.in

## Service Network

Volvo's service network in India encompasses Volvo Service Centers across the country. Most of them take care of maintenance and repairs to both the chassis and body. The service centers are strategically located in areas with high density of Volvo trucks and buses to meet requirements of customers.
